Testimonial

# Simple and Transparent.

E-Global Logistics provides a range of freight services, from domestic same day deliveries, to international freight by air or sea.

**Since joining Applegate, E-Global logistics have had the chance to quote on over 66 requests from freight buyers.**

**E-Global Logistics have received a wide range of bespoke requests, including:**

**Air Freight**

**Customs Support**

**Packaging**

## Communication is key

A buyer who required an air freight service from the UK to the USA specifically chose E-Global Logistics due to their responsiveness. This proves that the selection process by buyers isn't always down to cost. There are many contributing factors, and communication is key.
